PROFESSIONAL SUMMARY

Frontend developer with commercial experience building responsive React, TypeScript, JavaScript, and React Native interfaces across **20+** production projects in agency and product environments. Skilled in converting design and business requirements into maintainable UI components, API-connected user flows, reusable frontend patterns, and cross-platform mobile experiences. Experienced in using AI tools to support UI exploration, implementation planning, and structured frontend code delivery.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Actualisation • Brisbane, QLD

Dec 2025 – Present

- Independently delivered Actualisation's HubSpot CMS implementation, converting page designs into reusable templates, modules, forms, and HubDB-driven dynamic pages.
- Implemented frontend upload and review workflows for UDC (the Union Dairy Company) purchase order processing, including file validation, user review, and backend-connected automation, supporting **96%** extraction accuracy across multi-format documents.

Full Stack Developer | Digital8 • Brisbane, QLD

Sep 2024 – Sep 2025

- Built and shipped responsive React and TypeScript interfaces across **15+** commercial client projects, translating client requirements into maintainable frontend components and API-connected user flows.
- Shipped **Phase 1** of an Expo mobile app, building reusable React Native components, API-connected user flows, Firebase push notifications, and cross-platform testing.
- Improved frontend reliability by debugging rendering issues, reviewing API behaviour, and validating user flows across React, React Native, and admin web environments.

Full Stack Developer Intern | Easy Skill Australia Pty Ltd • Brisbane, QLD

Apr 2024 – Jul 2024

- Developed React frontend workflows for an internal payslip automation platform integrated with NestJS backend services and Boond Manager APIs.
- Improved page load speed by approximately **90 seconds** and reduced unnecessary web requests by **60%** by restructuring frontend data-fetching logic.

Front End Developer Intern | Phonely • Melbourne, VIC

Dec 2023 – Feb 2024

- Built React and Next.js product features connected to API data retrieval, page rendering, early-stage data simulation, and service workflow integration.
- Delivered a real-time user statistics dashboard and AI-driven call records page, improving visibility into service data and internal management workflows.

PROJECT EXPERIENCE

Freelance React Native Developer | Golf Wizard Co.

Sep 2025 – Present

- Maintained and enhanced a production React Native golf competition app supporting **400+** active users, debugging mobile rendering issues and testing user flows across live competition features.

AI-Assisted Development Workflow

May 2026

- Designed a structured development workflow using AI tools for UI exploration, requirement breakdown, implementation planning, and reusable prompt documentation.

TECHNICAL SKILLS

Core Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, SCSS, Responsive Web Design

Mobile: React Native, Expo, Firebase, Cross-platform Testing

API Integration: RESTful APIs, API Integration, Axios, Firebase

CMS: HubSpot CMS, HubL, HubDB, CMS Modules

AI & Workflow: AI-assisted Development, AI Tools, Prompt Engineering, Workflow Automation

Tools: Git, GitHub, GitLab, Jira, Postman, Figma

Backend Exposure: Node.js, NestJS, Laravel, PHP, AWS S3

EDUCATION

Master of Information Technology

Dec 2023

The University of Queensland

Bachelor of Measurement and Control Technology and Instruments

Jun 2020

China University of Geosciences Beijing

CERTIFICATION

Microsoft Certified: AI Apps & Agents Developer Associate AI-103

Expected Sep 2026
