PROFESSIONAL SUMMARY

Full stack developer with commercial experience delivering frontend interfaces, backend APIs, and integrated workflows across **20+** production projects in agency and product environments. Proficient in React, TypeScript, Laravel, Node.js, and NestJS, with practical AWS S3 and Secrets Manager integration experience. Experienced in using AI tools to support requirement breakdown, implementation planning, and maintainable full stack delivery.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Actualisation • Brisbane, QLD

Dec 2025 – Present

- Delivered the UDC (the Union Dairy Company) purchase order automation workflow end-to-end, integrating frontend uploads, AWS S3 storage, backend processing APIs, and human-in-the-loop review.
- Standardised multi-format purchase order processing for UDC (the Union Dairy Company), achieving **96%** extraction accuracy and supporting optimal dispatch warehouse calculation.
- Configured AWS Secrets Manager to manage backend service credentials and support Cognito token retrieval across UDC processing workflows.
- Independently delivered the HubSpot CMS implementation for Actualisation's initial website, converting page designs into reusable templates, modules, forms, and HubDB-driven dynamic pages.

Full Stack Developer | Digital8 • Brisbane, QLD

Sep 2024 – Sep 2025

- Built and shipped full stack features across **15+** commercial client projects using React, Laravel, and API-integrated workflows, including Grace Loves Lace luxury bridal commerce.
- Implemented Laravel backend features for UGive and Scout projects, including database integration, form processing, backend data handling, and API responses consumed by frontend interfaces.
- Supported modernisation of a **6-year-old** legacy system by developing specific features, resolving bugs, and migrating **61** mobile pages while preserving **95%** of original functionality.

Full Stack Developer Intern | Easy Skill Australia Pty Ltd • Brisbane, QLD

Apr 2024 – Jul 2024

- Built a full stack payslip automation platform using React, NestJS, and Boond Manager APIs.
- Reduced unnecessary web requests by **60%** and improved page load speed by approximately **90 seconds** by restructuring data-fetching logic and backend services.

Front End Developer Intern | Phonely • Melbourne, VIC

Dec 2023 – Feb 2024

- Built React and Next.js features connected to API data retrieval, page rendering, early-stage data simulation, and full stack product workflows.
- Delivered a real-time user statistics dashboard and AI-driven call records page, integrating frontend views with service data flows for internal management visibility.

PROJECT EXPERIENCE

AI-Assisted Development Workflow

May 2026

- Designed a structured development workflow using AI tools for requirement breakdown, implementation planning, and reusable prompt documentation, reducing implementation rework across projects.

TECHNICAL SKILLS

Frontend & Mobile: React, React Native, Next.js, Expo, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

Backend & APIs: Node.js, Express.js, NestJS, Laravel, PHP, RESTful APIs, API Integration

Cloud & Storage: AWS S3, AWS Secrets Manager, Firebase

Databases: MySQL, MongoDB, SQL

CMS & Platforms: HubSpot CMS, HubL, HubDB, CMS Templates

AI & Workflow: AI-assisted Development, AI Tools, Prompt Engineering, Workflow Automation

Tools: Git, GitHub, GitLab, Jira, Postman, Figma

EDUCATION

Master of Information Technology

Dec 2023

The University of Queensland

Bachelor of Measurement and Control Technology and Instruments

Jun 2020

China University of Geosciences Beijing

CERTIFICATION

Microsoft Certified: AI Apps & Agents Developer Associate AI-103

Expected Sep 2026
