Brisbane, QLD | 0481108194 | kaiwang2027@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

CMS and web developer with hands-on experience delivering HubSpot CMS websites, reusable modules, HubL templates, HubDB-driven dynamic pages, forms, and maintainable content workflows across **20+** production projects in agency and product environments. Skilled in converting page designs into scalable CMS structures that support non-technical content updates, with additional React, JavaScript, API-connected forms, and AI-assisted workflow experience.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Actualisation • Brisbane, QLD

Dec 2025 – Present

- Independently delivered Actualisation's HubSpot CMS implementation, converting page designs into reusable templates, custom modules, forms, and HubDB-driven dynamic pages.
- Built maintainable content workflows for Learn, Events, and Case Study-style pages using HubDB tables, page templates, reusable modules, and structured CMS content patterns.
- Supported UDC (the Union Dairy Company) purchase order automation workflows through frontend upload, validation, and backend-connected review interfaces.

Full Stack Developer | Digital8 • Brisbane, QLD

Sep 2024 – Sep 2025

- Built and shipped client-facing web interfaces across **15+** commercial projects, including Grace Loves Lace luxury bridal commerce, using React, JavaScript, and API-connected workflows.
- Implemented Laravel backend features for UGive and Scout projects, including database-connected form handling, server-side data processing, and frontend-facing API responses.
- Supported modernisation of a **6-year-old** legacy system by developing features, resolving bugs, and migrating **61** mobile pages while preserving **95%** of original functionality.

Full Stack Developer Intern | Easy Skill Australia Pty Ltd • Brisbane, QLD

Apr 2024 – Jul 2024

- Built an internal payroll automation platform using React, NestJS, and Boond Manager API integration.
- Reduced unnecessary web requests by **60%** and improved page load speed by approximately **90 seconds** by restructuring data-fetching logic.

PROJECT EXPERIENCE

AI-Assisted Development Workflow

May 2026

- Designed a structured development workflow using AI tools for requirement breakdown, implementation planning, and reusable prompt documentation.
